

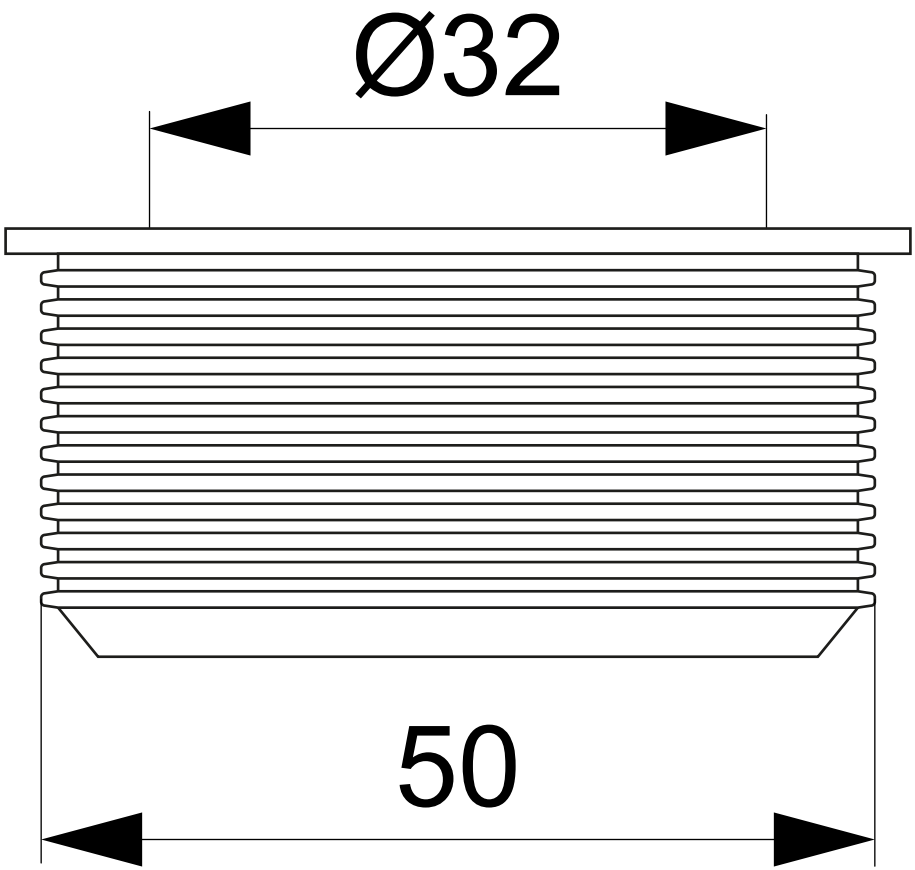
RSK 3106200

Pipe reducers are designed for use as reducers when connecting two waste water pipes with different outer and inner diameters, as well as waste water pipes with the same or different materials and surface structure. The Pipe reducers can be combined with other pipe reducers and multi pipe reducers, and are suitable for vertical and horizontal installation. The Pipe reducers should always be made from the inside of the larger pipe to the outside of the smaller pipe. The Pipe reducers are approved for concealed placement.

Specifications

RSK Number	3106200
Dimension	Ø50/Ø32 mm
Function	Transition seal
Item Color	Black
Material	EPDM
Pressure Flow Temp	0,5 bar
Version	Type approved for consealed installation



Ø32
50
