

RSK 7113591

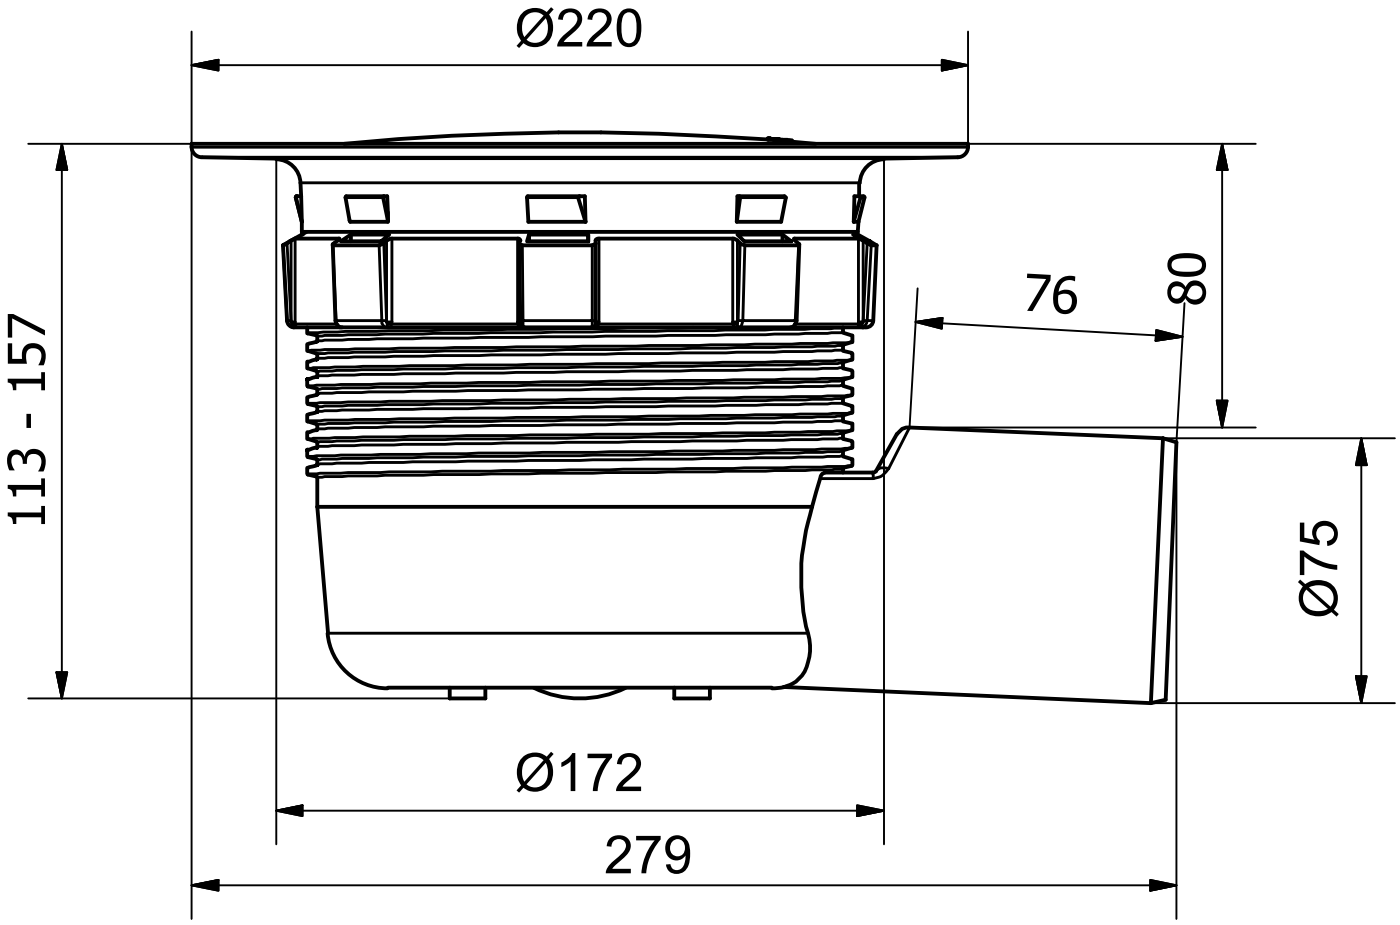

The Flex 75 Side floor drain has a 75mm side outlet and can be cut to adjust the overall height. To reduce the height, unscrew the flange, cut the ribbed part of the floor drain body to the desired size, and then return the O-ring. The floor drain is suitable for installation in concrete floors or wooden joists. The Flex floor drain comes complete with a removable water trap, clamping ring and plastic grate. It also comes with a protective cover that is intended to prevent any concrete or debris from entering the drain during installation.

The automatic self-adjusting clamping ring is used for both waterproofing membranes and vinyl flooring with a thickness of 1.5mm to 2mm.

Specifications

RSK Number	7113591
Dimension	Ø75 mm
Floor Construction	Concrete/Wood
Floor Covering	Concrete/Resin/Tiles/Vinyl
Function	Side outlet
