

RSK 7113768

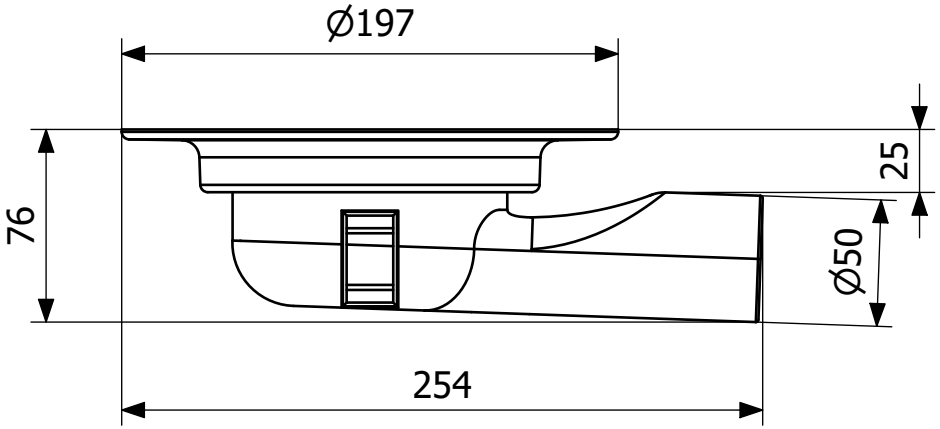

The Minimax 50 floor drain has a 50mm side outlet and a low total height of 76mm. It is suitable for installation in concrete floors. The Minimax floor drain comes with a removable NOOD water trap and clamping ring. The NOOD water trap is a mechanical trap which closes when there is no water present, thus preventing any foul air from escaping through the drain. It also comes with a protective cover that is intended to prevent any concrete or debris from entering the drain during installation. It is not suitable for installation underneath a bath tub.

The automatic self-adjusting clamping ring is used for both waterproofing membranes and vinyl flooring with a thickness of 1.5mm to 2mm.
