

RSK 7113547

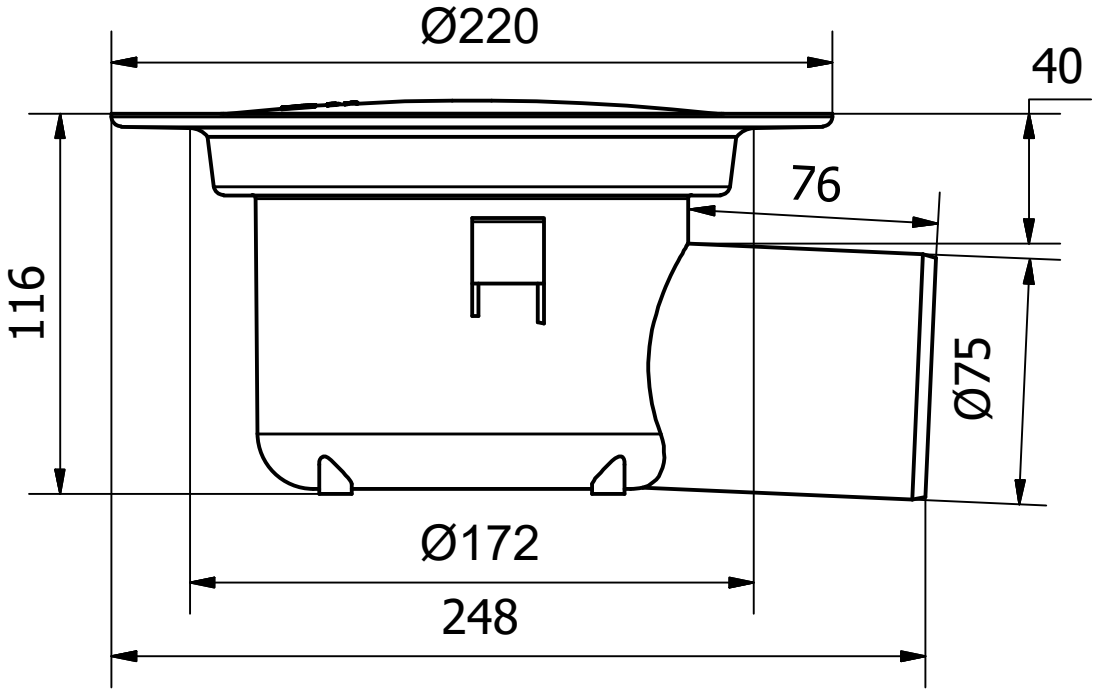

The Oden 75 Side NOOD floor drain has a 75mm side outlet and is designed for installation in wooden joists or concrete floors. The Oden floor drain comes complete with a removable NOOD water trap, clamping ring and plastic grate. The NOOD water trap is a mechanical trap which closes when there is no water present, thus preventing any foul air from escaping through the drain. It also acts as a 1m water column and prevents backflow. The floor drain comes with a protective cover that is intended to prevent any concrete or debris from entering the drain during installation.

The automatic self-adjusting clamping ring is used for both waterproofing membranes and vinyl flooring with a thickness of 1.5mm to 2mm.
