RSK 7118199

Lint Separator 600 is made of stainless steel and has a volume of 25 litres. The lint separator is for separating lint residues from washing machine wastewater, in order to reduce the risk of blockages in the drain. It also functions as a tank to store the large volume of water which is pumped out of the washing machine, allowing for an even flow into the floor drain. The lint separator is placed so that the outlet of the washing machine enters it. The grate in the lint separator has openings to collect particles larger than 5mm. The grate is easy to clean and reassemble. It is commonly used in high-use laundry rooms and launderettes. The lint separator comes with adjustable feet.

RSK 7118200

Lint Separator 800 is made of stainless steel and has a volume of 35 litres. The lint separator is for separating lint residues from washing machine wastewater, in order to reduce the risk of blockages in the drain. It also functions as a tank to store the large volume of water which is pumped out of the washing machine, allowing for an even flow into the floor drain. The lint separator is placed so that the outlet of the washing machine enters it. The grate in the lint separator has openings to collect particles larger than 5mm. The grate is easy to clean and reassemble. It is commonly used in high-use laundry rooms and launderettes. The lint separator comes with adjustable feet.

RSK 7118201

Lint Separator 800 is made of stainless steel and has a volume of 45 litres. The lint separator is for separating lint residues from washing machine wastewater, in order to reduce the risk of blockages in the drain. It also functions as a tank to store the large volume of water which is pumped out of the washing machine, allowing for an even flow into the floor drain. The lint separator is placed so that the outlet of the washing machine enters it. The grate in the lint separator has openings to collect particles larger than 5mm. The grate is easy to clean and reassemble. It is commonly used in high-use laundry rooms and launderettes. The lint separator comes with adjustable feet.

Specifications

RSK Number	7118199
Electrical Data	25 l
Function	With lint filter
Item Color	Stainless
Material	Stainless steel 1.4301
Outlet Dimension	Ø75 mm
Size	600
Surface	Cold rolled (2B)

RSK Number	7118200
Electrical Data	35 l
Function	With lint filter

Item Color	Stainless
Material	Stainless steel 1.4301
Outlet Dimension	Ø75 mm
Size	800
Surface	Cold rolled (2B)
