

RSK 7135000

Microcement grinding protection is used to ensure a perfect installation. The protection prevents microcement and any varnish from entering the grating slot, partly to be able to grind to a perfect rounding between microcement and grating. This is to get a tight installation.

Specifications

RSK Number	7135000
Dimension	Ø150mm
Floor Covering	Microcement
Function	For microcement
Item Color	Grey
Material	Plastic PA6
Size	155x155x3 mm
