RSK 8571714

The PUM bath waste bend in plastic has a 1½” connection and is designed for 40mm diameter outlet pipes. It comes with a gasket. The odour barrier (membrane) is integrated in the waste bend and is positioned within the pipe for easy cleaning and maintenance. The waste bend replaces the usual cup-style water trap, saving space in the installation area. It should be installed in conjunction with standard vertical wastes.

Specifications

RSK Number	8571714
