

RSK 7098866

Purus channel 100 modul 110 is a floor channel made of acid-resistant stainless steel for installation in concrete. The floor channel is intended for concrete, epoxy and tile floors without a waterproofing membrane. The floor channel is 100 mm wide, has no fall of which the height is 110 mm and 110 mm and a length of 500 mm. The floor channel is delivered with gasket and screw connection for installation but needs to be supplemented with grid depending on the environment and outlet house. The total height with screw joints is 129 mm.
