

RSK 7098889

Purus channel 100 is a floor channel made of acid-resistant stainless steel for installation in concrete. The floor channel is 600×100 mm with a deep end outlet and is intended for epoxy flooring. The floor channel needs to be supplemented with a grating/grid depending on the environment and outlet house in plastic or acid-resistant stainless steel. The channel is supplied with rubber spacer strips around the flange.

RSK 7098890

Purus channel 100 is a floor channel made of acid-resistant stainless steel for installation in concrete. The floor channel is 800×100 mm with a deep end outlet and is intended for epoxy flooring. The floor channel needs to be supplemented with a grating/grid depending on the environment and outlet house in plastic or acid-resistant stainless steel. The channel is supplied with rubber spacer strips around the flange.

RSK 7098892

Purus channel 100 is a floor channel made of acid-resistant stainless steel for installation in concrete. The floor channel is 1000×100 mm with a deep end outlet and is intended for epoxy flooring. The floor channel needs to be supplemented with a grating/grid depending on the environment and outlet house in plastic or acid-resistant stainless steel. The channel is supplied with rubber spacer strips around the flange.

RSK 7098894

Purus channel 100 is a floor channel made of acid-resistant stainless steel for installation in concrete. The floor channel is 1200×100 mm with a deep end outlet and is intended for epoxy flooring. The floor channel needs to be supplemented with a grating/grid depending on the environment and outlet house in plastic or acid-resistant stainless steel. The channel is supplied with rubber spacer strips around the flange.

RSK 7098896

Purus channel 100 is a floor channel made of acid-resistant stainless steel for installation in concrete. The floor channel is 1500×100 mm with a deep end outlet and is intended for epoxy flooring. The floor channel needs to be supplemented with a grating/grid depending on the environment and outlet house in plastic or acid-resistant stainless steel. The channel is supplied with rubber spacer strips around the flange.

RSK 7098897

Purus channel 100 is a floor channel made of acid-resistant stainless steel for installation in concrete. The floor channel is 2000×100 mm with a deep end outlet and is intended for epoxy flooring. The floor channel needs to be supplemented with a grating/grid depending on the environment and outlet house in plastic or acid-resistant stainless steel. The channel is supplied with rubber spacer strips around the flange.

RSK 7098898

Purus channel 100 is a floor channel made of acid-resistant stainless steel for

installation in concrete. The floor channel is 2500×100 mm with a deep end outlet and is intended for epoxy flooring. The floor channel needs to be supplemented with a grating/grid depending on the environment and outlet house in plastic or acid-resistant stainless steel. The channel is supplied with rubber spacer strips around the flange.

RSK 7098891

Purus channel 100 is a floor channel made of acid-resistant stainless steel for installation in concrete. The floor channel is 900×100 mm with a deep end outlet and is intended for epoxy flooring. The floor channel needs to be supplemented with a grating/grid depending on the environment and outlet house in plastic or acid-resistant stainless steel. The channel is supplied with rubber spacer strips around the flange.

RSK 7098893

Purus channel 100 is a floor channel made of acid-resistant stainless steel for installation in concrete. The floor channel is 1100×100 mm with a deep end outlet and is intended for epoxy flooring. The floor channel needs to be supplemented with a grating/grid depending on the environment and outlet house in plastic or acid-resistant stainless steel. The channel is supplied with rubber spacer strips around the flange.

RSK 7098895

Purus channel 100 is a floor channel made of acid-resistant stainless steel for installation in concrete. The floor channel is 1400×100 mm with a deep end outlet and is intended for epoxy flooring. The floor

channel needs to be supplemented with a grating/grid depending on the environment and outlet house in plastic or acid-resistant stainless steel. The channel is supplied with rubber spacer strips around the flange.

Specifications

RSK Number	7098889
Dimension	Bottom/side in plastic or stainless steel in Ø50, Ø75 or Ø 110 mm
Floor Construction	Concrete flooring
Floor Covering	Resin
Function	End outlet
Item Color	Stainless
Material	Acid-resistant stainless steel 1.4404
Size	600×100 mm
Surface	Pickled
Version	Do not forget grid/outlet house

RSK Number	7098890
Dimension	Bottom/side in plastic or stainless steel in Ø50, Ø75 or Ø 110 mm
Floor Construction	Concrete flooring
Floor Covering	Resin

Function	End outlet
Item Color	Stainless
Material	Acid-resistant stainless steel 1.4404
Size	800×100 mm
Surface	Pickled
Version	Do not forget grid/outlet house
