# **PURUS**

## RSK 7097003

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors. The channel has a central outlet and is intended for concrete floors as a surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

## RSK 7097004

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors. The channel has a central outlet and is intended for concrete floors as a surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

## RSK 7097005

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors. The channel has a central outlet and is intended for concrete floors as a surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

#### RSK 7103010

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors. The channel has a central outlet and is intended for concrete floors as

a surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

## RSK 7103015

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors. The channel has a central outlet and is intended for concrete floors as a surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

#### RSK 7103011

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors. The channel has a central outlet and is intended for concrete floors as a surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

## RSK 7103012

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors. The channel has a central outlet and is intended for concrete floors as a surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

#### RSK 7103014

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors. The channel has a central outlet and is intended for concrete floors as a surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

#### RSK 7103016

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors. The channel has a central outlet and is intended for concrete floors as a surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

#### RSK 7103017

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors. The channel has a central outlet and is intended for concrete floors as a surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

## RSK 7103018

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors. The channel has a central outlet and is intended for concrete floors as a surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors. The channel has a central outlet and is intended for concrete floors as a surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

## Specifications

**RSK Number** 7097003

**Dimension** Bottom/side in plastic or stainless steel

in Ø50, Ø75 or Ø 110 mm

Floor Concrete flooring Construction

**Floor Covering** Concrete

**Function** End outlet

**Item Color Stainless** 

**Material** Acid-resistant stainless steel 1.4404

Size 800×150 mm

**Surface** Pickled

Version Do not forget grid/outlet house

**RSK Number** 7097004

**Dimension** Bottom/side in plastic or stainless steel
