PURUS

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors. The channel has a central outlet and is intended for tiled floors as a surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

RSK 7097019

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors. The channel has a central outlet and is intended for tiled floors as a surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

RSK 7097020

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors. The channel has a central outlet and is intended for tiled floors as a surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

RSK 7103038

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors. The channel has a central outlet and is intended for tiled floors as a

surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

RSK 7103042

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors. The channel has a central outlet and is intended for tiled floors as a surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

RSK 7103039

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors. The channel has a central outlet and is intended for tiled floors as a surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

RSK 7103040

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors. The channel has a central outlet and is intended for tiled floors as a surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

RSK 7103041

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors. The channel has a central outlet and is intended for tiled floors as a surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

RSK 7103043

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors. The channel has a central outlet and is intended for tiled floors as a surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

RSK 7103044

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors. The channel has a central outlet and is intended for tiled floors as a surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

RSK 7103045

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors. The channel has a central outlet and is intended for tiled floors as a surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors. The channel has a central outlet and is intended for tiled floors as a surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

Specifications
