PURUS

RSK 7098778

Purus channel volume for concrete floors is a floor channel made of acid-resistant stainless steel for installation in concrete. The floor channel is 400x400x100 mm with a mid outlet and is intended for concrete flooring. The floor channel needs to be supplemented with grid depending on the environment and outlet house in acid-resistant stainless steel. Purus channel volume is adapted for environments with requirements for hygiene, has a large volume and high flow capacity.

RSK 7098779

Purus channel volume for concrete floors is a floor channel made of acid-resistant stainless steel for installation in concrete. The floor channel is 600x400x100 mm with a mid outlet and is intended for concrete flooring. The floor channel needs to be supplemented with grid depending on the environment and outlet house in acid-resistant stainless steel. Purus channel volume is adapted for environments with requirements for hygiene, has a large volume and high flow capacity.

RSK 7098780

Purus channel volume for concrete floors is a floor channel made of acid-resistant stainless steel for installation in concrete. The floor channel is 900x600x100 mm med ett mittplacerat utlopp och är avsedd för betonggolv som ytskikt. The floor channel needs to be supplemented with grid depending on the environment and outlet house in acid-resistant stainless steel. Purus

channel volume is adapted for environments with requirements for hygiene, has a large volume and high flow capacity.

RSK 7098781

Purus channel volume for concrete floors is a floor channel made of acid-resistant stainless steel for installation in concrete. The floor channel is 800x500x100 mm with a mid outlet and is intended for concrete flooring. The floor channel needs to be supplemented with grid depending on the environment and outlet house in acid-resistant stainless steel. Purus channel volume is adapted for environments with requirements for hygiene, has a large volume and high flow capacity.

RSK 7098786

Purus channel volume for concrete floors is a floor channel made of acid-resistant stainless steel for installation in concrete. The floor channel is 1000x300x50 mm med ett mittplacerat utlopp och är avsedd för betonggolv som ytskikt. The floor channel needs to be supplemented with grid depending on the environment and outlet house in acid-resistant stainless steel. Purus channel volume is adapted for environments with requirements for hygiene, has a large volume and high flow capacity.

RSK 7098782

Purus channel volume for concrete floors is a floor channel made of acid-resistant stainless steel for installation in concrete. The floor channel is 300x300x200 mm with a mid outlet and is intended for concrete flooring. The floor channel needs to be

supplemented with grid depending on the environment and outlet house in acid-resistant stainless steel. Purus channel volume is adapted for environments with requirements for hygiene, has a large volume and high flow capacity.

RSK 7098783

Purus channel volume for concrete floors is a floor channel made of acid-resistant stainless steel for installation in concrete. The floor channel is 500x300x200 mm med ett mittplacerat utlopp och är avsedd för betonggolv som ytskikt. The floor channel needs to be supplemented with grid depending on the environment and outlet house in acid-resistant stainless steel. Purus channel volume is adapted for environments with requirements for hygiene, has a large volume and high flow capacity.

RSK 7098784

Purus channel volume for concrete floors is a floor channel made of acid-resistant stainless steel for installation in concrete. The floor channel is 800x500x200 mm with a mid outlet and is intended for concrete flooring. The floor channel needs to be supplemented with grid depending on the environment and outlet house in acid-resistant stainless steel. Purus channel volume is adapted for environments with requirements for hygiene, has a large volume and high flow capacity.

RSK 7098785

Purus channel volume for concrete floors is a floor channel made of acid-resistant stainless steel for installation in concrete.

The floor channel is 500x300x50 mm with a mid outlet and is intended for concrete flooring. The floor channel needs to be supplemented with grid depending on the environment and outlet house in acid-resistant stainless steel. Purus channel volume is adapted for environments with requirements for hygiene, has a large volume and high flow capacity.

RSK 7098787

Purus channel volume for concrete floors is a floor channel made of acid-resistant stainless steel for installation in concrete. The floor channel is 1200x600x100 mm with a mid outlet and is intended for concrete flooring. The floor channel needs to be supplemented with grid depending on the environment and outlet house in acid-resistant stainless steel. Purus channel volume is adapted for environments with requirements for hygiene, has a large volume and high flow capacity.

RSK 7103074

Purus channel volume for expoxy is a floor channel made of acid-resistant stainless steel for installation in concrete. The floor channel is 900x600x200 mm med ett mittplacerat utlopp och är avsedd för massagolv som ytskikt. The floor channel needs to be supplemented with grid depending on the environment and outlet house in acid-resistant stainless steel. Purus channel volume is adapted for environments with requirements for hygiene, has a large volume and high flow capacity.
