

RSK 7114407

The Purus Corner Tile Insert is a super low-level floor drain with a height of just 59mm and a horizontal 50 mm outlet. It is designed for installation in concrete joists. The Purus Corner Tile Insert comes complete with a removable NOOD water trap, strainer, stainless steel clamping ring, stainless steel frame, Tile Insert grate and installation kit. The NOOD water trap is a mechanical trap which closes when there is no water present, thus preventing any foul air from escaping through the drain. This floor drain can be installed in the corner against the wall or elsewhere in the room. For wooden joists with poured concrete, you should use the side or gable outlet versions instead.

## Specifications
