

RSK 7130035

The rubber protective strip is used as a protective cover for Purus' channels for resin floors. The cover ensures that concrete does not run into the resin flange when pouring. Suitable for resin channels in all ranges.

RSK 7130036

The rubber protective strip is used as a protective cover for Purus' channels for resin floors. The cover ensures that concrete does not run into the resin flange when pouring. Suitable for resin channels in all ranges.

Specifications
